## **The Owl and the Pussycat went to see.....**

The Owl and the Pussycat are very much in love and want to be married. They sail away in a pea-green boat, to the land where the Bong Tree grows. They go in search of the Turkey, who can perform the wedding ceremony, and meet many colourful characters along the way. But some are not so nice and rather naughty; will the Plum Pudding Flea or the greedy Jumblies foil their plans?

Watch the story unfold and enjoy the fun and join in when needed!

The action of the play takes place in various parts of the land where the Bong Tree grows.

**There will be an interval of fifteen minutes between act 1 & act 2.**

The profits from this production will be donated equally to the following three charitable causes:
